

GENERAL:: Operations research [EE 404]

1.1 TITLE:: Operations research

1.2 *COURSE NUMBER (if known):: DE.EE.404.14

1.3 CREDITS::3-1-0 credits 11

1.4 SEMESTER OFFERED:: IDD Part-IV (Semester-VII)

1.5 SYLLABUS COMMITTEE MEMBERS:: Dr. D. Singh

1.6 PREREQUISITE

2. OBJECTIVE::**3. COURSE CONTENT::**

Mathematical formulation . Linear programming and applications.

Dynamic Programming, shortest route problem .

Integer programming .Branch and bound techniques .

Introduction to non-linear programming

Deterministic and probabilistic inventory models .

Decision theory, game theory, PERT, queuing theory, Markov chains .

4. READINGS

4.1 TEXT BOOKS

4.2 *REFERENCE BOOKS

5. OUTCOME OF THE COURSE::
